INDUSTRIALIZE CSONGRAD MEGYE: INCREASE MECHANIZATION, INVESTMENTS

NEW PLANTS IN OPERATION -- Budapest, Szabad Nep, 9 Apr 52

Once strictly rural, Csongrad Megye is undergoing an industrial revolution as plant after plant is built there.

The Szegedi Textil Muver (Szeged Textile Works) has been operating since the end of World War 11 and is equipped with modern Soviet machinery. Last year, the recently constructed Merleggyar (Scale Factory) and the Autojavito Vallalat (Automobile Enterprise), both in Hodmezovasarhely, began production. A cotton ginning mill is being built in the same city.

The Makoi Gepgyar (Mako Machine Factory), previously a minor repair shop, now manufactures agricultural machinery and equipment, while production at the newly equipped Faarugyar (Wood Products Factory) also in Mako, is five times as great as it was in prewar days.

Szeged now boasts the Finommechanikai Javito Vallalat (Precision Tool Repair Enterprise) and the Vegyianyagfeldolgozo Vallalat (Chemical Processing

Three sand-excavating enterprises have been founded in the megye; a mechanized brick factory is being built at Szoreg and a metal armature factory

SHOE MARHIPACTURERS INSTALL CONVEYER RELITS -- Budapest, Szabad Nep, 11 Apr 52

Hungarian shoe manufacturing is being accelerated by wide installation of conveyer belts. At present, 17 shoe factories are using conveyer belts, and installation of three more belts in planned for this year.

The factories already equipped with belts are the Duna Cipogyar (Danube Shoe Factory), and the Tisza, Ujpest, Szombathely, Bonyhad, Bortex, and Martfu shoe factories.

INCREASE INVESTMENTS IN PHARMACEUTICAL INDUSTRY -- Berlin, Aussenhandels Nachrichten, 9 Jan 52

Forty million forints were invested in the Hungarian pharmaceutical industry in 1951. Production figures topped those of the previous year by 45 percent. First priority was given to the manufacture of essential drugs which previously had to be imported. These include insulin, aminopyrine, phenacetin, morphine, and PAS (paraamino-salicylic acid).

Further development of the pharmaceutical industry is planned for the current year. The amount set aside for investments in 1952 exceeds 50 million forints.

INOTA ELECTRIC POWER PLANT BEGINS OPERATION -- Berlin, Aussenhandels Nachrichten, 5 Jan 52

The great Inota electric power center, construction of which was started 2 years ago and which was completed ahead of schedule, has begun operation. This power plant will electrify all of Transdanubia (Western Hungary) by supplying electricity to hundreds of villages and to many newly built factories, including the great Almasfuzito Aluminum Mill.
